Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Acknowledgment is made of the amendment filed on September 03, 2008. Claims 1 and 4-15 are currently pending.

Claim Objections

1. Claim 4 is objected to because of the following informalities:

in claim 4, line 1, delete "transient".

Appropriate correction is required.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1 and 4-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Antes (US 4,501,439) in view of Baldi (US 6,547,151).

Antes teaches

a card (document 1) comprising:

a substrate with one or more optical data deformations (microstructure 6) incorporated therein that are representative of digital data (col. 3, lines 14-20); and

optical state change security material (layer 3) formed as a layer over said optical data deformations (col. 3, lines 14-26);

the card wherein said optical state change material is associated with said optical data deformations to provide at least two optical data reads when said optical data deformations are read by an optical reader;

the card wherein each of said optical data reads is indicated of valid data;

the card wherein one of said optical data reads is indicated of valid data, while the other of said optical data reads is indicative of invalid data;

the card wherein each of said optical data reads is invalid;

the card wherein said optical data deformations comprise pits and lands; and

the card wherein said pits comprise pits of two distinctly different depths.

The teachings of Antes have been discussed above.

Antes lacks the teaching of an integrated circuit.

Baldi teaches an IC carrier comprising an integrated circuit (col. 2, lines 13-24).

One of ordinary skill in the art would have readily recognized that providing the Antes invention with an integrated circuit would have been beneficial for providing the document with a manner of storing a large quantity of information within a minimal amount of space. Therefore, it would have been obvious, at the time the invention was made, to modify the teachings of Antes with the aforementioned teaching of Baldi.

Response to Arguments

4. Applicant's arguments with respect to claims 1 and 4-15 have been considered but are moot in view of the new ground(s) of rejection prompted by the amendment to the claims.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
